

flight of life

one day in my life's
just like another fallin' leaf
fallin' from eternity's tree

and though i learned to fly,
yeah, i learned to fly
through all the years,
but i can't enjoy it anymore,
'cause my fear is growin' all the time,
that every leaf could be the last...

pictures passin' by,
past and future unite...

i'm flyin' high again
i'm fallin' free into existence -
just pure existence...
