

Come with me

Do you wanna live no more in a cold society,
then come with me.

Do you wanna get inside of coconuts and peas,
then come with me.

Do you wanna feel it all, penetrate the universe,
then come with me.

Do you wanna free your self, soul and sexuality,
then come with me.

Do you wanna see the light, join the circle of all life,
then come with me.

Do you wanna be a butcher and a butterfly in one,
then come with me.

Do you feel like Jimmy-Boy, you want the world, you want it now,
then come with me.

Are you sick of stupid bums, standin' always in your way,
then come with me.

Are you strong enough for truth, no more sweet'n'killing lies,
then come with me.

Consequence and contradiction
Brutal truth is my religion
Empty yearning my infliction
Past and present my prediction

Childhood's bliss forever gone
Ugly life now must be done
Music is my earthly god
Eternity my wanted port

Desperate humour
Vain, vital tuner
Keeps me'n'my burden sway
Along our circular way

My friend said "yes"
I say the answer is chess
The linear circle
The dreams of a turtle

Do you wanna evolve, become a fire, a sea,
then come with me.
Don't you wanna suffocate in stiffness and in inhibition,
then come with me.

Do you want us to explore the eternal mystery,
then come with me.
But whatever you'll expect, a mirror's all that you will see,
is all you'll see.
